# Cyberint
A Check Point Company

A UNIFIED EXTERNAL CYBER RISK SOLUTION

Infinity External Risk Management (ERM) is unified solution that continuously detects and mitigates a broad range of external cyber threats. With a focus on impactful intelligence and efficiency, Infinity ERM saves your team time and helps you mitigate external cyber risks before they develop into costly incidents.

IMPACTFUL INTELLIGENCE — Reduce Risk — Manage Exposure — Prioritize Threats — Attack Surface Management — Supply Chain Intelligence — Brand Protection — Dark Web Monitoring — Threat Intelligence — Risk Scoring & Dashboards — Takedowns & Remediation

CHALLENGE

Infinity ERM is a cloud-based SaaS solution that continuously and proactively reduces cyber risk. By combining threat intelligence, deep and dark web monitoring, external attack surface management, brand protection, and supply chain intelligence into a single holistic solution, Infinity ERM provides protection against a broad scope of external cyber risks while maintaining a low total cost of ownership and ensuring substantial value.

92% | of alerts identify relevant, true positive threats

55M | intelligence items collected every month

96% | takedown success rate over the past 10 quarters

KEY BENEFITS

- Continuously monitor, detect, prioritize, and mitigate a wide array of external cyber risks.

- Gain visibility on exposures in your attack surface as well as relevant threats on the deep and dark web.

- Protect your organization, brands, domains, and executives against malicious impersonation attacks.

- Support your team with managed services from Cyberint's nation-state level cybersecurity experts.

- Maximize security spend with a low-touch platform engineered for efficiency and simplicity of use.

- Consume alerts in the platform or within your existing security stack via integrations and REST APIs.

UNIFIED EXTERNAL CYBER RISK MANAGEMENT

Infinity ERM is a comprehensive solution for continuously detecting, managing, and mitigating external cyber threats, helping to reduce risk and prevent breaches.

Attack Surface Monitoring	Targeted Threat Intelligence	Global Threat Intelligence	Digital Risk Protection	Supply Chain Intelligence
Shadow IT & Asset Discovery	Darkweb Monitoring & Threat Actor Chatter	Ransomware Watch & Threat Landscape	Typosquatting Brand & Phishing Protection	Vendors & Technology Detection
Vulnerabilities & Exposure Detection	Credentials & Account Takeover	Enriched IoC Feeds	Social Media Impersonation	3rd Party Risk Management
CVE Intelligence	Fraud & Data Leakage	Intelligence Knowledgebase	Mobile App Impersonation	Alerting On Critical Risks & Breaches

Remediation
Fast & Effetive Takedowns | 3rd Party Integrations

Expert Threat Intelligence
Triage & Contextualization of Alerts | Virtual HUMINT | Custom Investigations

RECOGNITION AS AN INDUSTRY LEADER FROM TRUSTED ANALYSTS

ABOUT CYBERINT

Cyberint, now a Check Point company, reduces risk by helping organizations detect and mitigate external cyber threats before they have an adverse impact. The Check Point External Risk Management solution provides superior visibility through continuous discovery of the evolving attack surface, combined with the automated collection and analysis of vast quantities of intelligence from across the open, deep and dark web. A team of global military-grade cybersecurity experts work alongside customers to rapidly detect, investigate, and disrupt relevant threats – before they have the chance to develop into major incidents. Global customers, including Fortune 500 leaders across all major market verticals, rely on Check Point External Risk Management to protect themselves from an array of external risks, including vulnerabilities, misconfigurations, phishing, impersonation attacks, malware infections, exposed credentials, data leaks, fraud, and 3rd party risks.
